

A DECADE OF DEDICATION

At True North, making gear for firefighters isn't a job, it's an obsession. For over a decade now we've dedicated ourselves to creating the finest gear available. Our designs are constantly being evolved and updated using the input of thousands of firefighters like you. We know there is no such thing as the perfect design, but with your help we'll keep trying.

LIFETIME WARRANTY

All True North products are covered by a lifetime warranty against defects in materials and workmanship

L1 LightSpeed RIT Pack

List Price: \$219.95

> L1 LightSpeed RIT Pack Specifications

The first bag of our new LiteSpeed rescue series. Light, fast and incredibly tough. The bottom features a layer of our unique Heat-Shield™ composite material which allows the bag to glide over the roughest surfaces and still take the heat. Innovative access-hatch design lets you get to the spare face piece and valve set faster than any design on the market. With our new Quick-Draw design you won't have to waste precious time searching for the transfill hose. When you open the transfill pocket the end of the hose is pulled out and held ready to grab.

- Designed to hold all makes of masks and bottles
- Quick-Draw transfill hose pocket pulls hose end out and ready to grab
- Heat-Shield skid plate covers bottom to protect bag and get you there fast
- 60" shoulder strap can be re-positioned for carrying, dragging, or lowering the air bottle
- Two tool pockets provide fast access to small hand tools, light sticks, etc
- Made in USA
